Welcome to Module 1: What is a Makerspace?

During this first Module, you will demonstrate a working knowledge of makerspaces by describing the function of a makerspace and discussing the implementation of a makerspace.

If you are unfamiliar with what a makerspace is, how it can be used, who can use it, and why you should even care? You are in the right place!

Go to Google. No, really! Google image search "Makerspace"… What do you notice? You may notice the open spaces with organized storage for tons of "stuff". You may notice pictures of smiling or focused children and adults all with hands engaged in various tasks. Now, want to find gold? Search "Makerspace" on Pinterest!

Activity 1: Please watch this brief video about Lee Elementary makerspace?

While watching, think about these questions and write down your thoughts.

What was this makerspace used for?

What were some of the materials?

What were the students accomplishing in the makerspace?

What standards could these activities be linked to within your state?
